

## END TEN-DAY CAMP AT COLONIAL BEACH

Scoutmaster Harry B. Angus (In Background) and Members of Boy Scout Troop No. 4.

## FOREST TRAIL IS NEARING COMPLETION

White Mountain Club to Use Scout Accomplishment on Next Trip.

**WILD RIVER CAMP, July 12.**—Members of the White Mountain Club will use the new Boy Scout trail built near their camp on their trip from their camp near Shelburne to the top of Mt. Moriah. This is the declaration of the president of the club following an inspection of the trail by a party of forestry officials. The trail will be probably the finest in the forestry reserve. The cutting is clean, six feet wide, with a tread varying from eighteen inches to two feet, and is free from rocks and roots and is fully paved with rocks.

Starting from a point just south of Shelburne, N. H., the new trail runs in a generally southeasterly direction for more than ten miles along the site of the Shelburne Moriah, Middle Moriah and Moriah mountains to Cypress brook, south of the brook and follows that water course in its sinuous windings to Snyder's camp on the old railroad survey on the south side of Wild river, about seven miles from Gilead, Me. The entire course is now practically "cut out" and will require only a little more grubbing before it is ready for Government inspection.

The whole undertaking has been a remarkable achievement, according to forestry officials. "That young boy, untrained to such work, fresh from city life and with only a theoretical knowledge of the woods should be able to do the different kinds of work has been worthy of the experience of the best men and the work of the best men," said an official. "The Government will be advertising the undertaking as a Boy Scout work, and will be known as the Boy Scout trail."

**Rivalry of Two Groups.**—In the meantime, the boys up on the side of the mountains are bending every energy to complete the work. The trail, about five miles apart, has been established on the trail, one half mile from the other on Moriah brook. The trail party is composed of eight boys from Washington and Baltimore, and is under the charge of Scoutmaster F. A. Greenhawk, of Baltimore. The second party is composed of eight boys from Boston, under the charge of Scoutmaster H. C. Mason. The parties are working in opposite directions. The Baltimore and Washington parties have a shorter distance to cover, but the Boston boys have easier country to go through, so it is expected that the work of each party will be completed at the same time. There is keen rivalry between the two parties, however, and members of each declare they will beat the other fellows to it in spite of everything.

As soon as the Shelburne-Moriah press-Wild River trail is completed, a party which gets through first will be taken down on Wild river to camp on a section of trail along an old railroad grade about a mile and a half long. This portion of trail is considered the prize to be given to the best work, and strange as it may seem, competition for this choice bit of work is keen. If both parties complete their work at the same time they will both go down to complete this work.

**Cover Mail Honor.**—Every day, a boy from each party walks into the main camp, five to six miles away. He stays all night at camp and early next morning "hikes" Hastings postoffice, six miles away, in the mail, loads up, walks back to camp, grain loads up with provisions and takes the trail back to his side-camp. Each day a different boy is sent. The opportunity to carry the mail is a coveted one, even though the boys are often heavy. Scoutmaster Mason, in charge of operations, has headquarters at the main camp, at the junction of the trail and Wild river. A regular government cook is kept busy making up supplies for "the boys." "Daddy Smith," as he is affectionately called, arrived while they were up on the trail. He had been in charge of the

big cook tent scarcely an hour before the boys all along the new cuttings knew that a change had taken place, and knew, also, what he was to be called.

When the party reached camp at about 5 o'clock Sunday afternoon, the first thing heard was three cheers for "Daddy Smith," and then a general scattering to get cleaned up for dinner. Such a dinner! Baked beans; doughnuts, fresh and hot; cocoa, bread, and butter. Strawberries were brought in Sunday, by automobile, together with a supply of ice cream.

"Did they eat all the ice cream?" asked one of the forestry officials, when he was told of it. "They certainly did," was the answer, and when all the roast beef, mashed potatoes, applejack, and other good things had been disposed of, there couldn't have been found a hungry scout anywhere. To use the expression of one of them, "the White Mountain Trail Builders are strong on the eat."

**The Trail Commissary.**—The boys far well up on the trail since "Daddy Smith" took charge of the cook camp. Bacon, either broiled on a stick, scout fashion, or in the conventional manner; boiled ham, fried ham, home-made bread, cocoa, boiled potatoes, cornbread, made on the spot over an open campfire; oatmeal, rice pudding, butter, doughnuts, cookies, cake, tea, and coffee. The boys sleep at their side camps in lean-tos, many of them covered with ponchos or rubber blankets when the weather is wet. Each party has a 7 by 9 tent to use in case of emergency and for protection of the supplies.

Everything about the outfit is conducted as near as possible after the system adopted by the Forestry Service in similar work. Each party has several first-aid kits, supplied by the Government. But there has been no use for these so far, for accidents have mainly been confined to falling off the log across Wild river, just out of camp on the morning of Sunday, and similar unexpected happenings at the other brook crossings.

Several of the boys have reached the acme of their desire in their experience with wild animals, for they have seen a bear. Unknown to any of the boys, the Washington party encamped just across a "deer run," so that a sight of these animals has not been unknown to the boys were sitting near the trail late in the afternoon, a good sized black bear appeared through the woods, coming slowly up the deer run. The boys were toward the boys, so that bruin did not scent them, and continued his stroll as unconcerned as if no Boy Scout were within a hundred miles. The boys watched him, fascinated by the sight, for several minutes, when all, as if by a given signal, indulged in a loud "whoop." Mr. Bear looked up, says

the boys, and started at a lumbering canter down the trail. Before the boys could collect themselves he had disappeared.

**Hardened To Work.**—In spite of the fact the boys are so far away from home and living under such unaccustomed conditions, there has been no homesickness. The boys are becoming hardened to their work. All are brown and healthy looking. All talk familiarly of the woods and woods ways.

The outing is producing more than Boy Scout trail builders. It is producing young fellows at whom it is good to look. Each is fit for almost anything, strong of muscle and ready to take his turn at the ax, grub hoe, or to tramp a score or so of miles and back at any time. The expected tramp over the summit of the Presidential range and to the top of Mt. Washington will be an easy trip for these fellows. It will occupy three days probably, ending at Randolph, and will provide a fitting ending to a successful expedition.

H. I. BOWLES.

## ENCAMPMENT ENDS

## FOR TROOP FOUR

Ten Days at Colonial Beach Filled With Adventure and Generally Good Time.

Sun burned and full of stories of adventure and good times, the boy scouts of troop No. 4 recently returned from a ten-day encampment at Colonial Beach. While in camp the boys conducted a popular voting contest, the results being: Emmet O'Neill, biggest eater and talker; Craig Wilton, smallest eater; Percy Darcy, quietest boy; Louis Goodrich, best natured boy; Barton White, best swimmer and jolliest boy; Ray Birton, the best liked boy, and Louis Coleman, best "all round" boy. George German was found to be the ablest bed-maker, this merit being decided by marks given each day by Scoutmaster Harry B. Angus, who was in charge of activities.

Boy Scouts who took part in the outing were: Louis Hoelmgren, Philip Hartford, John Sullivan, Craig Wilton, Emmet O'Neill, Louis Coleman, Thomas Crompton, George German, Ray Darcy, Fred Plant, Raymond Gorton, Roland Dahl, Barton White, Solomon Scher, Arthur Ketter, John Klester and Daniel Neikirk.

Camp Takoma, White House Point, Va., June 19.—On completing a ten-day encampment Monday, Troop No. 21, of Takoma Park, will break camp, shoulder knapsacks, and begin a hike home through Fairfax Courthouse, Mt. Vernon, and Alexandria, reaching Washington next Thursday night.

The troop left Washington on the motor boats Marjane and Joe Bradley, a week ago yesterday, arriving in camp at 5:30 o'clock. Little time was needed to transfer supplies from the boats to the camp site, but by the time this was accomplished, the boys were in a good condition to do justice to their first meal at Camp Takoma. After supper, tents were temporarily pitched before retiring for the night. The next day the camp was shifted to a more suitable locality near a spring and where stood three small cabins, which were utilized during a storm. The tents were pitched with two rows facing the river and a thoroughfare between, with that of the scoutmaster on a small knoll.

Two boys are appointed each day to do the cooking, and accompanying chores, while the following program is carried out: 6 a. m., reveille; 6:15

a. m., colors; 6:45 a. m., breakfast; 7:30 a. m., fatigue call to clean up camp; 10 a. m., swimming call; 11 a. m., recall; 12 m., dinner; 2 p. m., swimming; 4 p. m., recall; 6 p. m., supper; 8:15 p. m., toilet; 9 p. m., tape.

Friends of the troop have supplied two rowboats and a canoe and boat drills and life saving are taught daily. Last Sunday evening, the boys visited the engineers' camp, known as Gunston Cove, and were shown everything of importance. Each day two engineer buglers instruct the scouts in the calls and signals.

Troop No. 6 is enjoying a week-end encampment at Riverdale, Md., under the supervision of Scoutmaster Stephen S. Ball.

This troop met last Friday evening with Troop No. 10 in joint session at the Noel House, with Scoutmaster Ball presiding.

Six boys of the troop took their second class examinations last Saturday, after which the entire troop hiked to Fort Myer to visit the wireless station. During the course of their inspection they heard the operator sending messages to Boston, Portsmouth, Va., and Philadelphia. On the return trip they came back through Arlington National Cemetery to the Chesapeake and Ohio Canal, where supper was cooked over an outdoor fire and eaten.

## TROOP 21 READY

## TO HIKE HOMEWARD

Takoma Lads Expect to Reach Washington on Thursday Night.

The Fraternal Order of Eagles, of Washington, has arranged with the District council, so that any boy scout who desires may join the all-day outing to Marshall Hall, on August 13. All expenses will be paid by the Eagles.

The affair will not be a charitable one. It will be merely in accordance with one of the maxims of the Fraternal Order of Eagles, "Fraternalism." The members of the Eagles desire to show to their young boy scout brothers, "their good will toward them."

**Girl Scouts Campaign To Spread Organization.**—A number of Girl Scouts who are out of Washington on their summer vacations are effectively booming the Girl Scout movement among their acquaintances in other cities, and, according to national headquarters, the project is progressing in membership very rapidly.

A meeting of Troop No. 19 was held at the home of Captain Foster last Tuesday evening. A. K. Driscoll, president of the Mid-City Citizens' Association, made an address, after which an invitation was tendered the girls to attend an outing at Marshall Hall on August 7, which was accepted.

Members of Girl Scout Troop No. 6 are making arrangements for a week-end encampment at Great Falls early next month. Tents will be pitched and meals cooked over campfires, and everything will be indicative of a typical pioneer camp.

Mrs. S. A. Moores, captain of the troop, has issued an order which will require the patrol leaders to deliver a short talk on scout laws at each meeting of the troop hereafter. Last Friday Captain Moores and a number of friends, accompanied by Miss Cora Neal, national secretary for the Girl Scouts of America, took part in an all-day outing at Great Falls. After dinner a meeting was held on a rock overlooking the falls, when plans for the coming encampment were discussed and Miss Maibelle Jones read an essay, entitled "Loyalty."

**\$1.50 Pique Skirts, 69c**  
(TUESDAY ONLY)  
Again The Newport Store is able to offer the ladies of Washington one of those extraordinary bargains.  
This time we were fortunate enough to get a lot of Piques from one of the big New York houses going out of business. We got them dirt cheap and turned them into skirts, making them with the new tunics. Now, don't make a mistake and think that this is the cheap quality Pique that they make 98c skirts out of. It is a material that would cost you in any retail store 25c to 39c a yard. There is no lining under the tunic, the Pique runs all the way up. We place the value of the skirt modestly at \$1.50, though some of the high-end stores would sell them at \$1.98. Special for Tuesday.  
**69c**  
To make it worth while for you to come our way we include the following in this 69c sale. (Tuesday only.)  
\$1.25 House Dresses, including Mandell's Make... 69c
